

## 2012 – 2013 UCLA Hellman Fellows

**Danijela Cabric** (Electrical Engineering)  
Efficient Spectrum Sharing using Cognitive Radios

**Daniela Cusack** (Geography)  
Does Nitrogen Pollution Affect Carbon Cycling in Nitrogen-Rich Tropical Forests

**Robert Daland** (Linguistics)  
Phonology in Word Segmentation and Recognition

**Sung Hui Kim** (Law)  
The Last Nazi Bond and the Early Years of the SEC

**Rodney McMillian** (Art)  
from Asterisks in Dockery

**Jonathan Mitchell** (Earth & Space Sciences)  
Exploring the Interiors of Ocean Moons

**Amy Rowat** (Integrative Biology & Physiology)  
The Molecular Origins of Cell Nucleus Shape Stability

**Donatello Telesca** (Biostatistics)  
Statistical Methods for the Analysis of Adverse Symptoms Co-occurrence in Breast Cancer Patients

**Aradhna Tripathi** (Earth & Space Sciences)  
How have Changing Carbon Dioxide Levels Influenced Climate in the Past?

**Nico Voigtlaender** (Anderson School of Management)  
The Geography of Hate: Historical Roots of Anti-Semitism in 21<sup>st</sup> Century Germany
